

Criteria Specific + Outside Managed Scholarships

These scholarships are designated to and facilitated by community partners – often specific high schools or university departments – who help match deserving recipients who fit the specific criteria of each award. CFSA **does not** manage the process for selecting the recipients of these awards but does facilitate the administration and disbursement of the scholarship funds. In some cases, CFSA may be able to connect you with the community partner that manages the selection process if you are interested in one of the scholarships listed below.
